EXPERIENCE

Indian Institute Of Information Technology, Nagpur — Student

2023

Created Student management system as College Project using File Handling in C language

Indian Institute Of Information Technology, Nagpur — Student

2023

Created Frontend of Netflix Clone website as College Project using HTML , CSS and Javascript

PROJECTS

Byte Blog

<https://byte-blog-wine.vercel.app/>

Developed a fully-featured blogging platform allowing users to sign up, log in, and manage their blogs. Utilized React for building a dynamic and responsive user interface. Implemented Appwrite as the backend service. Managed state efficiently with Redux Toolkit. Handled client-side routing and navigation using React Router DOM. Designed with Tailwind CSS. Employed React Hook Form for managing form inputs and validations. Integrated TinyMCE React for rich text blog content creation and editing.

File Extension Organizer

File Extension Organizer is a Javascript program that organizes files in your directories according to their filetype (extension). Reduces clutter

Personal Landing Page

Using HTML,CSS and Javascript , I created sleek and responsive website to showcase my projects,skills and Professional Journey at <https://aakash0101x.github.io/>
